International Science Partnerships Fund

We invite applications from UK institutions for research proposals to collaborate with international partners through the International Science Partnerships Fund (ISPF).

The ISPF is designed to enable potential and foster prosperity. It puts research and innovation at the heart of our international relationships, supporting UK researchers and innovators to work with peers around the world on the major themes of our time: planet, health, tech, and talent.

The fund is managed by the Department for Science, Innovation and Technology and delivered by a consortium of the UK's leading research and innovation bodies.

You can find all the British Council Opportunities on our website: <https://opportunities-insight.britishcouncil.org/opportunities> which can be filtered to display only those related to ISPF. You can also register to receive updates.
